DESCRIPTION	RATE	QTY	AMOUNT
Travel to site	\$115.00	1	\$115.00
-Inspection of unit Nissan carrier mounted drill rig RT800 Hours - 1684 SN - U5963	\$115.00	5	\$575.00
-Alternator only charging at 25V			
-Found right track not moving as it should			
-Machine will travel in straight line slowly will not turn sharply			
-Removed right final drive cover. Oil clean but level low. Appears to be in good condition			
-tested both drive motors for case drain flow - OK			
-unit has a new hydraulic pump for travel functions. No pilot pressure to valve for right track motor. Will need more time to further trouble shoot issue. Could be a crossed line while new pump was installed.			
-Tested drill rig functions - OK			
-tested diesel powered air compressor functions. -OK
