## TS 800 concrete cutoff saw

- The TS 800 cut-off machine features a comfortable, ergonomic design with plenty of power.
- This saw easily takes care of asphalt, concrete, reinforcement bars and other metal support pieces.
- Designed for extended operation with a 16" abrasive wheel for deeper cutting
- this machine does the job of other large walk-behind machines, and can be hand-operated or mounted on the FW 20 cart for improved precision and operator comfort.
- Water connection on saw
