SEGMENT# 2 C KRI01 N/A 06/13/23 06/13/23				
Function Issues				
<u>COMPLAINT:</u>				
The end dump and side dump combo functions not working				
<u>CORRECTION:</u>				
T.K. June 13/23 Tested power from truck to trailer and had good voltages. Followed the wires back to the junction box and had good voltages there as well. Tested the voltage from the lead to the end dump and voltage was bad had about 1 volt from the plug. found a seized plug and had to cut it out and splice in new plug and cord plug and tested voltage and was good. Repaired some wiring that was backwards and had help from Calvin to diagnose the tailgate locks. Side dump airbags wouldn't go up after repair and found someone tied into the lift axle switch. Isolated the switch and tested and everything is working.
