Needs a new right bucket cylinder

COMPLAINT:

The right side bucket cylinder or hose leaking.

CORRECTION:

Went and checked out the leak. Blew everything off real good and cycled the bucket cylinder until i could see where the hydraulic oil is coming from. Noticed it was coming from the fitting that is welded to the cylinder it's self. We just wrapped up the leak with diapers to get us by till we got the new cylinder. I ordered a new cylinder. The bucket cylinder arrived and i started to change it. blew off everything around the cylinder, hoses, mounts, ect. The hose has also failed going to the barrel end of the cylinder. Changed the cylinder, hose and a greased the cylinder and quick attach. Topped up hydraulic oil. Checked the leaking top window and seems fine.
