Failed alternator and belt

COMPLAINT:

Having to boost the excavator every time it gets shut off. Went to the unit and boosted it. Checked for voltage and it was only putting out 12 volts. Talked to Darren about getting a new one and there closest one was in the US. Rolled the alternator to i can get pictures of the number so he could get me one with a belt. retighten up the alternator and boosted again. Got the alternator and belt and installed. blew out the condenser which was plugged and rad and cooler. blow of the engine and pump.

Needs female quick couplings

COMPLAINT:

Female quick connector failed.

CORRECTION:

Went and checked out the issues. Found out that the female coupling had failed. Checked out what we had here and there was nothing due to the BSC fitting that the coupling screwed into. I went and checked other pieces of equipment
